

Blueberry Pancakes

Materials

- Cardboard
- Cooking spatula

Instructions

- Cut circles out of cardboard and use a marker to make dots on each pancake for each number (e.g. one dot on one, two dots on another, three dots on another)
- Write each numeral from 0-10 on separate pancakes.
- Give your child a spatula and face all the cards on the floor face down. This game is like the memory game, where you child needs to find the cards that match e.g. one dot and 1.
- Your child uses the spatula to flip over the pancakes and try to find a pair. If they find a pair, they can keep it.
- If they don't find a pair, they turn the cards back over and try again.
- If the memory game is too difficult for your child, place all the cards face up and get them to try and find the pairs.
